Cerca de 90% das Universidades e Instituições ID no mundo inteiro estão ligadas à Internet.

Está a ocorrer um boom informacional e para que se possa usar de forma eficiente os recursos disponibilizados online devem utilizar-se ferramentas e métodos correctos de pesquisa.

Fontes de informação

Dentre os instrumentos de pesquisa existentes numa biblioteca, as Bases de Dados em formato electrónico têm um papel fundamental.

O seu objectivo é dar suporte informacional aos trabalhos académicos e científicos, no que se refere ao levantamento de dados para o desenvolvimento das pesquisas.

Iniciar uma pesquisa

Como realizar pesquisas bibliográficas eficientes e encontrar a informação desejada?

Que informação procurar?

Por onde começar?

UNIÃO EUROPEIA

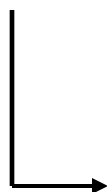

Iniciar uma pesquisa

O primeiro passo para o sucesso da pesquisa é definir o assunto de interesse.

As pesquisas em Bases de Dados podem ser feitas a partir de quaisquer dados: autor, título, assunto, nome do periódico, etc,...

Identificar / usar as palavras-chave que identificam o assunto

palavras de relevância, ou de maior importância, na procura de um assunto.

Língua inglesa

A maior parte das bases de dados, e consequentemente os artigos, são em inglês, pelo que as palavras-chave a utilizar devem ser nesta língua.

É possível fazer pesquisas bibliográficas em outras línguas (português, espanhol, francês, etc.), mas o universo de artigos disponíveis é bastante reduzido quando comparado ao inglês.

Pesquisa mais eficaz:

- ❑ Operadores lógicos - booleanos

AND

OR

NOT

E

OU

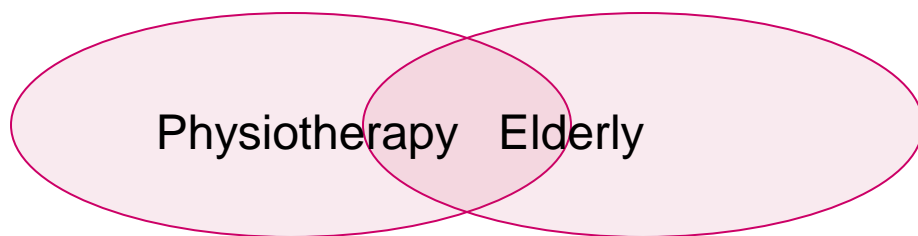

NÃO/SEM

- ❑ Truncatura

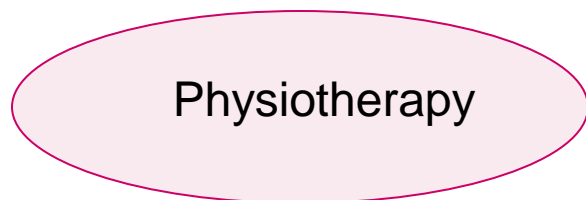

?

*

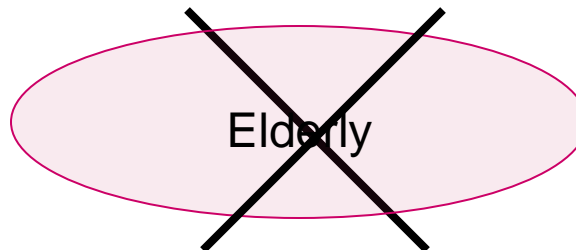

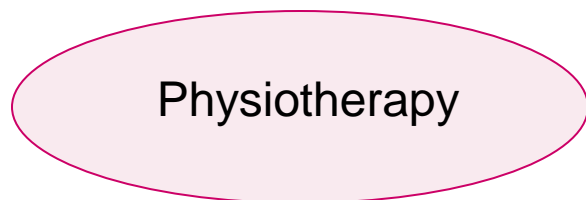

Physiotherapy x Elderly

E

OU

SEM

Recuperar singular/plural ou todas as formas da raiz da palavra

? apenas um carácter - *wom?n*

* um ou mais caracteres partindo da raiz da palavra - *child**

Aumentar o resultado

Não perder nada relativamente ao conceito pesquisado.

Ter o cuidado de não aumentar a taxa de lixo e ruído
(atenção à raiz das palavras)

Resultados da pesquisa

Que Informação recuperamos?

Que Informação perdemos?

Qual a qualidade da informação obtida?

Qual a relevância da informação obtida?

Qual a percentagem de lixo?

UNIÃO EUROPEIA

Tipos de bases de dados

Bases de dados referenciais

Listam referências bibliográficas de determinados assuntos, cujo conteúdo abrange a descrição dos dados de artigos de periódicos. Geralmente incluem o resumo do artigo e algumas vezes podem ter o link para o texto integral

Existem bases de dados referenciais específicas e multidisciplinares

Bases Referenciais Específicas

About ACS Publications

ACS Journals

ACS publishes many of the world's leading peer-reviewed research journals in the chemical and related sciences.

C&EN

A weekly magazine, free to ACS members, covering science and technology, business and industry, government and policy, education, and employment aspects of the chemistry field.

ACS Books

ACS publishes 35–40 new books each year and maintains a backlist of more than 500 titles.
